PATENT PENDING

THE DETAILS

ABOUT US

Based in Los Angeles, CA, Hydrant Solutions was founded on the idea that fire hydrant maintenance and repair should be quick, safe, and cost-efficient.

With over 20 years of industry experience, the founders set out to design the Breakaway Collar out of a need for a less expensive and time-consuming solution for fire hydrant repair.

Since then, the Breakaway Collar has become the most cost-effective, long-term solution for hydrant management in America, helping cities keep costs down while eliminating disruptive repairs that interrupt fire protection for both commercial and residential areas.

Innovative, low cost, and 100% made in the USA, the Breakaway Collar is the best way to install a fire hydrant.

THE

BREAKAWAY COLLAR

THE WORLD'S FIRST, ONLY, AND MOST DEPENDABLE FIRE
ACCESS ENCLOSURE

By providing instant, easy access to the flange area of a fire hydrant, the Breakaway Collar allows a displaced hydrant to be remounted or replaced within minutes.

With no need to break concrete, the costs associated with fire hydrant repair are dramatically reduced.

solutions

YOU'LL LOVE IT

BECAUSE IT'S

FAST

Instead of taking hours to repair a fire hydrant, the Breakaway Collar allows you to remount a new hydrant within minutes.

DURABLE

The Breakaway Collar has been designed, built, and extensively tested to endure even the harshest conditions.

LIGHT WEIGHT

Forget about having to haul tons of heavy materials and equipment to the job site. The Breakaway Collar was designed with your back's best interests in mind.

EASY TO USE

Just remove the lids and put them back on. We'll supply the special bit, and you B.Y.O.S. (bring your own screwdriver). No, really, that's it.

MADE IN THE U.S.A.

With the design and manufacturing of the Breakaway Collar based in Los Angeles, CA, we're proud to offer a product that's guaranteed to be built to last.

KEY

FEATURES

SLIP RESISTANT SURFACE

Keep your feet on the ground,
instead of up in the air

SECURITY BOLTS

Patented bit shape keeps the Breakaway
Collar tamperproof and secure

RIGID EXTERIOR

A rigid exterior binds the Breakaway
Collar to the surrounding concrete.

MODULAR DESIGN

With zero moving parts, the Breakaway
Collar is easy to assemble.

THE

CHOICE IS CLEAR

WARRANTY	lifetime
MAINTENANCE	no maintenance required
SAFETY CONCERNS	none
INSTALL TIME & TOOLS	No additional installation time, tools needed: drill
